

Building Permits

AN INTEGRATED MODULE DESIGNED TO ISSUE, REPORT, INSPECT AND MAINTAIN

Vadim's iCity Building Permits module controls an "issued permit" database for properties within a municipality while integrating with your financial system. User friendly search features are offered for permit type, property or contractor along with user defined inspection criteria making it quick to find information. This module retains full permit history and offers comprehensive reporting, including statistical reports. The depth and flexible capabilities of this module make the management and maintenance of permits simple and efficient for municipalities.

KEY SYSTEM FEATURES

- User friendly search features
- Use a table setup for building the permit system
- Define the variety of permit types customized to your needs
- Maintain and manage only the information you want, cutting down on unnecessary steps
- Properties may be automatically verified
- Full user security by individual employee and by department
- Convenient online inquiry allows access to view any property or permit
- Retains full permit transaction detail history for past and future record keeping
- Integration with Property Taxes, Business Licensing, General Ledger and Cash Receipting provides immediate accurate data
- Inspections can be defined for each permit type
- User can create custom user-defined fields for each permit type

ABOUT VADIM

Vadim Software develops innovative, integrated financial, municipal, asset and utility management software for Municipalities, Local Governments and Utility Companies. Founded in 1975, Vadim has been dedicated to this market for over 37 years.

iCITY ENTERPRISE

iCity provides you with the core software modules you need to run your organization efficiently, including Financial Systems, Payroll & HR, and extended Municipal Systems like Property Taxes, Utilities, Cash Receipting and more.
