

Business Licenses

IMPROVE THE PROCESS OF BUSINESS WITHIN YOUR MUNICIPALITY

Vadim's iCity Business Licenses module provides a municipality with complete management and control of businesses operating within its jurisdiction including non-resident businesses. This module issues licenses, provides reports, tracks businesses and allows for multiple license categories per business license.

The depth and flexibility of the Business Licenses module streamlines the administration of licenses and makes tracking businesses simple and straight forward.

KEY SYSTEM FEATURES

- Improve the control of your business license procedures with a single point of data entry
- Speed up the processing of licenses for customers with automatic calculations
- Improve revenue by reducing delinquencies with the tracking system
- Faster processing of licenses with direct integration to Cash Receipting
- Ease of transition with existing software
- Licensing is per module, not per user, which reduces costs and increases usage
- Excellent training program for staff takes out the "guess work"
- The Mobile Business License Pilot tracks inter-municipal business licenses for mobile businesses & has the ability to search by various criteria to find a business in the database
