

# Cemetery

## HANDLE YOUR CEMETERY MANAGEMENT WITH EASE

Vadim's iCity Cemetery Management module manages the sale and availability of individual burial plots within municipal cemeteries and integrates with your core financial system. This flexible module maintains a database of information associated with each plot.

The system tracks information on each plot, conducts data searches on name, kin, or other details and provides useful reports. This versatile module is compatible with the required provincial statistical reporting needs. The depth and versatility of the Vadim Cemetery Management module simplifies recordkeeping and resource management for municipal cemeteries.

## KEY SYSTEM FEATURES

- Save time with easy set up
- Flexibility allows any number of plots in any number of cemeteries
- Ability to create account receivable invoices directly from the Cemetery module
- Cemetery records maintain various types of statistical data such as burial, religion, plot code and dates for future reference
- Unlimited number of cemeteries and burial methods enables easy expansion or multiple sites in one system
- Automatic verification of cemetery plot provides instantaneous information retrieval
- Inventory of available plots by row, simplifying site selection
- Cemetery certificate, interment permit and monument permits print from within module

### ABOUT VADIM

Vadim Software develops innovative, integrated financial, municipal, asset and utility management software for Municipalities, Local Governments and Utility Companies. Founded in 1975, Vadim has been dedicated to this market for over 37 years.

### iCITY ENTERPRISE

iCity provides you with the core software modules you need to run your organization efficiently, including Financial Systems, Payroll & HR, and extended Municipal Systems like Property Taxes, Utilities, Cash Receipting and more.
