

# Fixed Assets

## EASILY AND EFFECTIVELY COMPLY WITH PSAB REQUIREMENTS

Vadim's iCity Fixed Assets provides asset management that allows iCity users to comply with PSAB requirements. The Fixed Assets module provides users with the ability to set up depreciation schedules for their assets, calculate depreciation expenses and post this information into the iCity General Ledger through a Journal Voucher.

We've made comprehensive updates to our iCity Fixed Assets system including replacing the original amortization related features with brand new tools and expanded functionality.

## KEY SYSTEM FEATURES

- Track information related to: work history, insurance, location, attachments, add-ons, readings (odometer & hours) and units of output
- Full user security
- User defined fields and user definable maintenance periods
- Unlimited number of user defined data fields
- Set up work schedules based on the readings, dates, etc
- Set up depreciation schedules & calculate depreciation using industry standard methods
- Provide equipment charge-out rates, if linked to iCity Maintenance Management
- Ability to detail the steps involved to complete a job and specify which inventory items will be needed if linked to iCity Maintenance Management
- Perform preventative maintenance on your assets in relation to the work schedules

### ABOUT VADIM

Vadim Software develops innovative, integrated financial, municipal, asset and utility management software for Municipalities, Local Governments and Utility Companies. Founded in 1975, Vadim has been dedicated to this market for over 37 years.

### iCITY ENTERPRISE

iCity provides you with the core software modules you need to run your organization efficiently, including Financial Systems, Payroll & HR, and extended Municipal Systems like Property Taxes, Utilities, Cash Receipting and more.
