

# Municipal Drainage

## MANAGE YOUR MUNICIPAL DRAINS EFFECTIVELY

Vadim's iCity Municipal Drainage module allows municipalities to charge a portion of the maintenance costs associated with Drainage (like a drainage ditch) to the property owners based on the acres owned and acres drained.

The Municipal Drainage module prepares cost estimates to any or all land owners on a drain and generates invoices and statements as well as data reports for municipal drain projects. The program uses the roll number to link mailing and other client information.

## KEY SYSTEM FEATURES

- Separate module that is extensively tied in with Property Taxes
- Attach digital images and scanned drawings to your drain project
- Automatically send the drainage data to a spreadsheet for sorting and reviewing
- Import the drainage data from the engineer's prepared spreadsheet
- Track data for drainage projects including project number, bylaw information, drain number & name, project cost & type, and contractor's name
- Track charges that are not made to a tax roll, such as roads and railways

### ABOUT VADIM

Vadim Software develops innovative, integrated financial, municipal, asset and utility management software for Municipalities, Local Governments and Utility Companies. Founded in 1975, Vadim has been dedicated to this market for over 37 years.

### iCITY ENTERPRISE

iCity provides you with the core software modules you need to run your organization efficiently, including Financial Systems, Payroll & HR, and extended Municipal Systems like Property Taxes, Utilities, Cash Receipting and more.

## IT INFRASTRUCTURE SERVICES

Your Information Technology (IT) department may be big or small, or you may not have one at all. Either way, our Network Services Team is available to take care of your technical needs and help your organization run smoothly. **Services include:** Kit Installation, Server Tune-Ups, Managed Hosting, Infrastructure Consulting, Server Migration and Disaster Recovery.

## APPLICATION SERVICES

The depth of skill and experience of our team allows us to assign staff according to expertise depending on your specific needs.

**Services include:** Customized Training, Project Management, iCity Optimization, Data Conversion, Third Party Integration and Development Services.

For more information on our products and services, please visit us online at [www.vadimsoftware.com](http://www.vadimsoftware.com)

## INTEGRATION TO PROPERTY TAXES ELIMINATES DOUBLE-ENTRY

- Property owners names extracted from Property Taxes
- Create a billing and transaction record in Property Taxes for billed drains
- Create French/English and English bills
- Calculate cost allocations
- Create an exception report for properties not in the Property Tax database

The screenshots illustrate the integration of iCity V2.00 with Property Taxation. The top window, 'Drain Maintenance', displays a table of drain records:

Drain Code	Drain Name	Amount	Type	B/L-Inv #	Status
DRAN2	UPPER EAST SIDE	7000.00	M	M-292	C
DRAN3	LOWER WEST SIDE	7000.00	B	M-292	O
MAIN	PROPERTY OFFICER	45000.00	M		O

The middle window, 'Drain Billing Calculation', shows calculation options for a specific drain, including billing dates and invoice amounts.

The bottom window, 'iCity V2.00', shows the 'Full Menu' with a tree view of modules, including 'Drains', 'Reports', and 'Property Database'. The 'City tware by VADIM' logo is also visible.
