

iBOLT

UNBOUNDED APPLICATION LINKING

iBOLT technology is a data management tool that links information throughout your applications. Using iBOLT, municipalities can integrate specialist applications together for real-time communication between all departments.

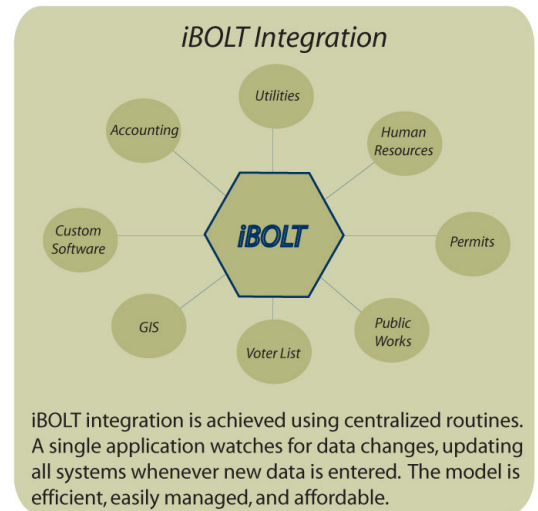

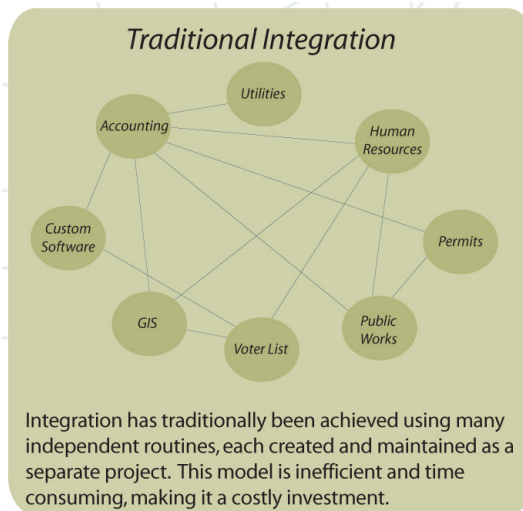

An industry proven Business Integration solution, iBOLT easily links legacy and new software, allowing you to maintain your current investments. It is the most flexible, comprehensive, cost-effective and easy-to-use solution on the market. With this advanced integration tool, you can quickly create and dynamically deploy new business processes, services, or applications with minimal operational change. The result? Reliability is improved, processes are simplified, functionalities are extended and compatibility is achieved with all municipal applications: legacy, current and future.

ABOUT VADIM

Vadim Software develops innovative, integrated financial, municipal, asset and utility management software for Municipalities, Local Governments and Utility Companies. Founded in 1975, Vadim has been dedicated to this market for over 37 years.

iCITY ENTERPRISE

iCity provides you with the core software modules you need to run your organization efficiently, including Financial Systems, Payroll & HR, and extended Municipal Systems like Property Taxes, Utilities, Cash Receipting and more.

KEY SYSTEM FEATURES

- Links legacy applications to your current system
- Links current applications that don't support integration
- Links future applications so your investment is always current
- Simplifies future integration projects
- Is affordable enough to fit into your budget
- Reduces your long-term operational costs
- Improves the workflow throughout your municipal office

CENTRALLY MANAGED INTEGRATION IS A POWERFUL CHOICE

iBOLT Integration combines integration processes throughout the office for enhanced reliability and simplified maintenance.

iBOLT is:

- Designed to link legacy, current and future applications for optimal compatibility & choice
- Effective for optimizing municipal workflows & simplifying time-consuming/tedious tasks
- Affordable enough for any municipal budget, costing 60% less than traditional integration
- The most effective way to link municipal applications in real-time
- Integration that opens the doors to all future software options
- Supported by your choice of Vadim Software and/or your local IT department

IT Professionals Will Appreciate iBOLT's:

- Ease of maintenance - using state-of-the-art visual management tools
- Easy-to-learn processes - there's no programming language involved
- Versatility - iBOLT compatibility spans over a hundred database engines
- Compatibility - integrating across different operating systems and network platforms
- Longevity - the source code will not go obsolete if properly maintained
- Adaptability - iBOLT adapts to major software changes in hours as opposed to weeks required by hard-coded tools
- Manageability - included management tools put the power to help in the hands of IT professionals
